

2011 Merit Badge College
Narragansett Council
January 22, 2011
EXPLORE LEARN ACHIEVE

Highlights of the 2011 Narragansett Council Merit Badge College.

EXPLORE LEARN ACHIEVE

A realignment of districts to Service Areas within the Narragansett Council has necessitated a name change. The event is still organized by the same dedicated staff and striving to achieve ever higher standards.

New offerings this year include Archeology, offered by RI Archeology Lab, Veterinary Medicine sponsored by the RI Veterinary Medical Association, and Weather Merit Badge instructed by meteorologist Mark Searles of NBC 10. The three new meritbadges released in 2010 are represented as well: Geocaching, Scouting Heritage, and Inventing with the RI Small Business Development Council at Johnson & Wales.

Age Guide: Due to the amount of material to be covered and the advanced nature of the work, classes designated as HS are appropriate for Scouts in the 9th grade or higher. Classes designated as G are appropriate for any Scout.

Schedule Code: AD indicates that the class is offered as a full day event. AM or PM indicates that the class is a half day event, offered in the morning and/or afternoon as indicated. The scout can choose either session, space allowed.

Prerequisites are those requirements that the counselor requests be accomplished prior to class. These requirements will be discussed in class but passage may depend on the prior work. No one is turned away for not complying, but in order to get the most out of the class, the scout should make every attempt to do this.

Not Teaching indicates requirements that will not be discussed in class and that it does not matter when the scout completes them. These typically include field trips, surveys, and activities not conducive to the MBC setting.

What You Do, Is Who You Are. Be Excellent!
All Scouts should acquire and read the MB Pamphlet to prepare for the MBC.
