**32<sup>nd</sup> Annual Klondike Derby**  
**at**  
**Camp Cachalot**

January 14, 2012

# **I. General Information**

## **A. What is a Klondike derby?**

A Klondike derby is a one day competitive event which uses sledges and Klondike Gold Rush themes to complete a multiple “Town” course and sledge race, pitting each team’s skills and team work against the clock. The purposes of the derby are: first a grand outdoor winter adventure full of fun and surprises, and second, a way for scout’s to test their basic camping and survival skills.

Only in case of extreme bad weather will the derby be postponed or cancelled.

Each troop is encouraged to enter as many expedition teams as they can support. The minimum team size is 4 scouts; smaller teams will be combined so that all may participate. Maximum team size is 8 scouts.

Each expedition will visit several “Towns”. **The order of the towns must be followed using the map provided.** Each of these towns will have a Mayor and a minimum of two judges. The Mayor of the town can be identified by his orange stocking hat. The scouts will have a task to complete and will be scored on proper technique, team work, and scout spirit.

**The Mayors word on all matters is final.**

**The Patrol Leader is the only member of the team that may communicate with the Mayor or Judges of the town.**

***THIS EVENT IS FOR SCOUTS ONLY.***

***ADULTS ARE REQUESTED NOT TO ASSIST THE PATROLS AND WILL NOT BE ALLOWED IN THE TOWNS. A MAYOR OF A TOWN WILL BE ALLOWED TO DEDUCT (25) NUGGETS AS A PENALTY IF HE SEES ADULTS INTERFERING.***

## **B. Inspection and Weigh-in Procedures**

Each patrol will begin with a sledge inspection and weigh-in at the boathouse field beginning at 7:00 AM until 08:30. All sledges will be checked to insure all weight and dimension requirements are met and all equipment is present. The team will also be checked for proper dress for the day's activities and the current expected weather conditions.

*If the Klondike committee feels a scout is not dressed properly for conditions he will not be allowed to compete. In this case a team will be allowed to compete with three members.*

### **Each scout must have:**

- a. A stocking hat or hat with ear protection. (*Baseball cap style hats will be allowed if the temperature is above freezing*).
- b. Gloves or mittens.
- c. Proper footwear for conditions. ***Absolutely no sneakers allowed during the days activities***
- d. A complete change of clothes.
- e. Rain Gear (must be a jacket or poncho).

Any team meeting all of the requirements at this station will be awarded a bonus of 15 nuggets. *If a patrol does not meet the requirements they will be penalized at the end of the days activities with a deduction of (15) nuggets.*

### **Empty sledges will be weighed and must weigh a minimum of 50lbs.**

**One bonus nugget will be subtracted for every 5 lbs. under weight. A team with a under weight sledge must add weight to bring the sledge's weight to 50 lbs. A note will be added to the score sheet of such and Town Mayors will check that the weight is in the sledge. At anytime during the day a staff or committee member can check sledges for proper equipment.**

## C. Check In

After weigh in at the Boathouse Field, patrols will then proceed to the 21 Club. Only the patrol leader is allowed to enter and register their patrol. He must bring a nugget pouch, waterproof map holder, Klondike Derby Sledge Registration form completely filled out and signed by the Scoutmaster. Please be sure you have written your District in the appropriate place. Teams whose average age is 14 or more will compete in the Senior Division. Teams with an average age of 13.9 or younger will complete in the Scout Division.

Each patrol leader will be issued any last minute instructions, an official map, scavenger hunt paper, and a score sheet. If your team makes no effort to do the compass course or the scavenger hunt, you will be given a zero for those events.

**By participating in the compass course (both Boy Scouts and WEBELOS) and the scavenger hunt, the points awarded from these events can make a difference in the final scoring.**

After check in, each patrol will proceed to the Tom Cullen field for their assigned starting time. At 15 minute intervals, the starter will send off 10 patrols into the vast tundra in search of Klondike Gold. Each team must follow the map issued at registration.

*If a team arrives at a town out of order they will receive 1/2 the nuggets they would have received had they arrived in the proper order. They will be instructed to go to the proper town and complete the task at that town before being able to complete the task at town they arrived in out of order.*

Upon the completion of the last town of the day, the patrol leader and a buddy must report to the official scoring station at the 21 club with their score sheet and nugget pouch, then return to Tom Cullen field for the "Great Race". All scores will be tabulated, checked and announced at the end of the day at approximately 5 PM at the 21 Club.

**Only the Patrol Leader and the SM will be allowed in the scoring area. Once the patrol leader submits the score sheet he will rejoin his patrol for the Great Race.**

# First Aid and Emergency Scenarios

*All these emergency and first aid scenarios are written to make you think about treating various types of situations and injuries. At the same time not making things worse for the injured or for the Troop itself. The plan is to treat the injuries and get the injured person the correct and best help as quickly as you can, or to avoid these types of problems in the future.*

## SCENARIO 1

While out on a backpacking hike the Troop comes around a corner of an area of the trail with a steep 40 foot cliff on one side of the trail and an equally steep 20 foot drop on the other side of the trail. Lying in the middle of the trail is an unconscious person with an obvious broken leg. He has a hard hat on his head and is wearing equipment appropriate for rock climbing, and you can see there are ropes still attached to the cliff face. There is also a large heavily bleeding cut on his arm, and a bruise on his forehead.

***TASK - List the steps you would take to help secure this person and get medical help without jeopardizing further injury.***

## SCENARIO 2

While out on a backpacking hike the Troop comes around a corner of an area of the trail with a steep sloping hill on one side of the trail and a thickly forested area on the other side of the trail. Lying in the middle of the trail is a conscious but confused male person with an obvious broken leg. He has a large back pack lying on the ground beside him. He is wearing clothing appropriate for a hike into the woods, and is carrying equipment appropriate for a long self sustained stay in the woods. There is a large heavily bleeding cut on his arm, but no apparent other injuries.

***TASK - Please list the steps would you take to help secure this person and get medical help.***

## SCENARIO 3

While being driven by adult leaders to a site a good distance from home, a Troop comes upon a multi-vehicle car accident on a road that is not heavily traveled. There are a fairly large number of people injured, but none appear serious and

everyone is conscious and able to speak, and tell you what hurts. There is the smell of gasoline in the air, but there is no fire. The cars are heavily damaged.

***TASK - What steps would you as a Troop take to assist the people involved in the accident without endangering them or the members of your Troop?***

#### SCENARIO 4

Your Troop is out on what was planned as a long summer hike with daypacks and minimal equipment in the mountains. You all have water and trail food, and some articles of clothing in your packs. In the beginning the day was 80 degree temperatures and sunny, but the weather begins to change from warm sunny skies to foggy and cooler temperatures down into the 50's. After a while one Scout begins to say he is getting cold. Shortly after that he begins to shiver and complain more about his legs hurting. Everyone is getting damp from walking through the fog, which is now getting very thick and visibility is rapidly diminishing.

***TASK - What is happening and what steps should you do to help the Scout and the rest of your troop to get through this?***

#### SCENARIO 5

While out in the woods camping, your Troop is taking a day hike along a trail at a pretty quick pace. Yet you need to stop to catch your breath and to take a drink of water from your bottle. It only takes a couple minutes, but when you begin to hike again, you come up to a fork in the trail with three different trails you could take. Your Troop is out of sight, and you cannot hear their voices. So you take the trail that appears the heaviest traveled. You pick up your walking pace, but despite your best efforts you can't catch up to your Troop. You're not sure you actually took the right trail, and suddenly you're not sure what to do next. You have next to nothing with you on the hike, only your water bottle, and a small almost empty daypack.

***TASK - What should you have done to not allow this to happen? What equipment should you have brought with you just for emergency moments like this?***

***What steps do you take to help yourself?***
