Swimming- Be a swimmer

Please note: Any Aquatics Merit Badges require the scout to pass the BSA swimmer's test on Sunday. We advise if they do not pass on Sunday to re-think the badges for the week and work during open program time with the Aquatics staff through instructional swim

\*We do our best to outline what requirements must be completed prior to arriving at camp. Many badges require reports, essays, or scrapbooks to be assembled. If at all possible scouts should familiarize themselves with the requirements before camp and be prepared for these requirements. Time is given during camp through open program to work on these projects however it is easier to accomplish these reports prior to arrive at camp.

\*\*Please note that some badges especially badges offered in the Handicraft area might incur an additional cost for craft projects or materials from our trading post.

\*\*\*Please remember, our counselors do their best to give every scout an opportunity to complete as many requirements as possible. Sometimes due to weather events, the time needed to complete certain requirements, or other events partials are given to scouts. It is important to remember that a partial is not a fail, merely a work in progress.
